Instructions for the Care of Rolls-Royce Cars

THE SECRET OF SUCCESSFUL RUNNING. Examination of privately-owned cars has demonstrated that while some drivers realise the necessity of periodical lubrication of all moving parts, others, who have not been trained as mechanics, content themselves by oiling the parts which come immediately under their eye, and neglect other parts, thus allowing the chassis to be injured, to become noisy and inefficient, and their masters to be put to unnecessary expense in repairs. An endeavour has been made in this book by means of copious illustrations, to enable the least experienced owner to satisfy himself if his driver is or is not giving the attention which is indispensable for the economical and satisfactory working of a chassis. First issued January, 1911 (reprinted June, 1920)

Rolls-Royce Silver Shadow Graham Robson Subtitled: The Complete Story. By the mid 1950s, Rolls-Royce cars were both mechanically and visually dated. Never a company to do things in a hurry, Rolls-Royce designed the Silver Shadow series of limousines with a fully monocoque shell and a new engine. Developed into the Silver Wraith, Corniche and Camargue as well as Bentley models, the new design became Rolls-Royce's best selling car ever. Here Robson charts the design, development and production of these superlative cars and of the special versions that were built. Hdbd., 7 1/4 x 9 1/2, 192 pgs., 16 b&w ill., 2 color.

Service-Handbook Rolls-Royce Silver Dawn, Silver Wraith, Phantom IV and Bentley MK. VI, R-Type

Announced in 1965 this was the first monocoque design from Rolls-Royce thus bringing an end to the variety of custom-built bodyshells of the past. In time the Silver Shadow and its Bentley T-type cousin became recognized as great cars just like their forebears. In-house coachbuilders, Mulliner-Park Ward produced an attractive two-door body with flowing wing lines which was offered as a fixed-head coupé or a convertible. From 1971 this was marketed as the Corniche, a model seen as separate from the Silver Shadow. This is a

book of contemporary road and comparison tests, technical and specification data, detailed production changes, touring, driver's impressions, history. Models covered include: Series I & II, LWB, Bentley T2, Corniche, Silver Wraith II.

Rolls-Royce Shadow and Bentley T-Series

The Rolls-Royce company acquired Bentley Motors in 1931 and, although models continued to be produced with the Bentley name, they increasingly used many Rolls-Royce components. By the time the Silver Cloud and Bentley S were released in 1955, they were really differently badged versions of the same design. Yet the sporting tradition of the Bentley marque was upheld with the exotic Continental models that were derived from them. The Silver Cloud family represents a pinnacle for the Rolls-Royce company. The cars all had and still have a very special presence, and the standard saloons have an unsurpassed elegance and rightness of line. The special-bodied cars, meanwhile, are reminders of an age when the skill of the best coachbuilders was something deserving of universal admiration. With around 190 photographs, this book features: The story of the design and development of the Rolls-Royce Silver Cloud and Bentley S Type; A look at the production development of these cars between 1955 and 1965; An examination of the Bentley Continental models that were derived from Silver Cloud and S Type design; The history of the Phantom V and Phantom VI limousine chassis introduced in 1959 and destined to last until 1990; Full technical specifications, including paint and interior trim choices; Production figures and chassis codes and finally, a chapter on buying and owning one of these wonderful classic cars.
